ARCASHA (în mitologia greacă - Arcas (/ 'ɑ:rkəs) a fost un vânător care a rămas menționat pentru că a lăsat oamenilor arta țesutului și a coacerii pâinii) este un brand de design conceptual, axat pe cercetare și experimentare.

ARCASHA crează lucrările cu filozofia că designul unui obiect încorporează interacțiunea dintre frumusețe, simplitate și imperfecțiune.

Utilizând tehnici manuale, fiecare piesă de design, indiferent dacă este prezentată pe podea, atârnată de tavan sau plasată undeva la mijloc, explorează impactul structurii, texturii și culorii în spațiu, cu scopul de a reflecta o îmbinare subtilă și precisă a artei și designului.

ARCASHA (in the greek mythology - Arcas (/ 'ɑ:rkəs) was a hunter who was remembered for having taught people the arts of weaving and baking bread) is brand for material research, experimental and conceptual design.

Arcasha creates their pieces with the philosophy that the design of an object embodies the interplay between beauty, simplicity and imperfection.

Using handmade techniques, every design piece, whether presented on the floor, hung from the ceiling, or placed somewhere in between , explores the impact of structure, texture, and color in space, with the goal to reflect a subtle and precise merge of art and design.
